CELEBRATING 120 YEARS: ONE OF THE WORLD'S LARGEST SITES DEDICATED TO THE RESEARCH, DEVELOPMENT AND PRODUCTION OF VACCINES

CAMPUS SERVES AS THE U.S. HEADQUARTERS FOR SANOFI PASTEUR

A HISTORIC CAMPUS CELEBRATES 120 YEARS OF VACCINE EXPERTISE

- The Swiftwater site was founded in 1897 by Dr. Richard Slee as the Pocono Biological Laboratories.
- The laboratories later became part of the National Drug Company, then Connaught Laboratories, followed by Pasteur Mérieux Connaught, and Aventis Pasteur.
- Swiftwater has a dedicated workforce of more than 2,500 people in Industrial Affairs, R&D, Commercial Operations, and various Support Functions.

WORLD'S LEADING SEASONAL INFLUENZA VACCINE MANUFACTURER

- The Swiftwater site, today owned by Sanofi Pasteur and formerly the Pocono Biological Laboratories founded in 1897, licensed its first influenza vaccine in 1947.
- After doubling its global vaccine production capacity in the past 10 years, Sanofi Pasteur now produces more than 200 million doses of seasonal influenza vaccine for worldwide distribution.
- Sanofi Pasteur provides approximately 40% of the global influenza vaccine supply and at least 60 million doses for the United States.
- Sanofi Pasteur continues to discover and deliver a variety of influenza vaccine improvements including:
 - The first high-dose influenza vaccine for adults aged 65 and over,
 - Quadrivalent influenza vaccines to help provide broad protection against influenza by containing two A strains and two B strains,
 - The first pediatric influenza vaccine for children as young as six months of age.
