

What is the PA Youth Survey?

Quick FAQs

- Administered by CCP and participating school districts
- Funding through PCCD
- Every two years
- Grades 6, 8, 10, & 12
- Four strategies are used to determine valid surveys
- Uses a confidence interval

Clarion FAQs

- County Report, 2nd Year
- Five School Districts
- 1, 220 students
- 600 Male; 609 Female
- Only 3.3% were invalid
- Confidence interval: +/- 1.9%

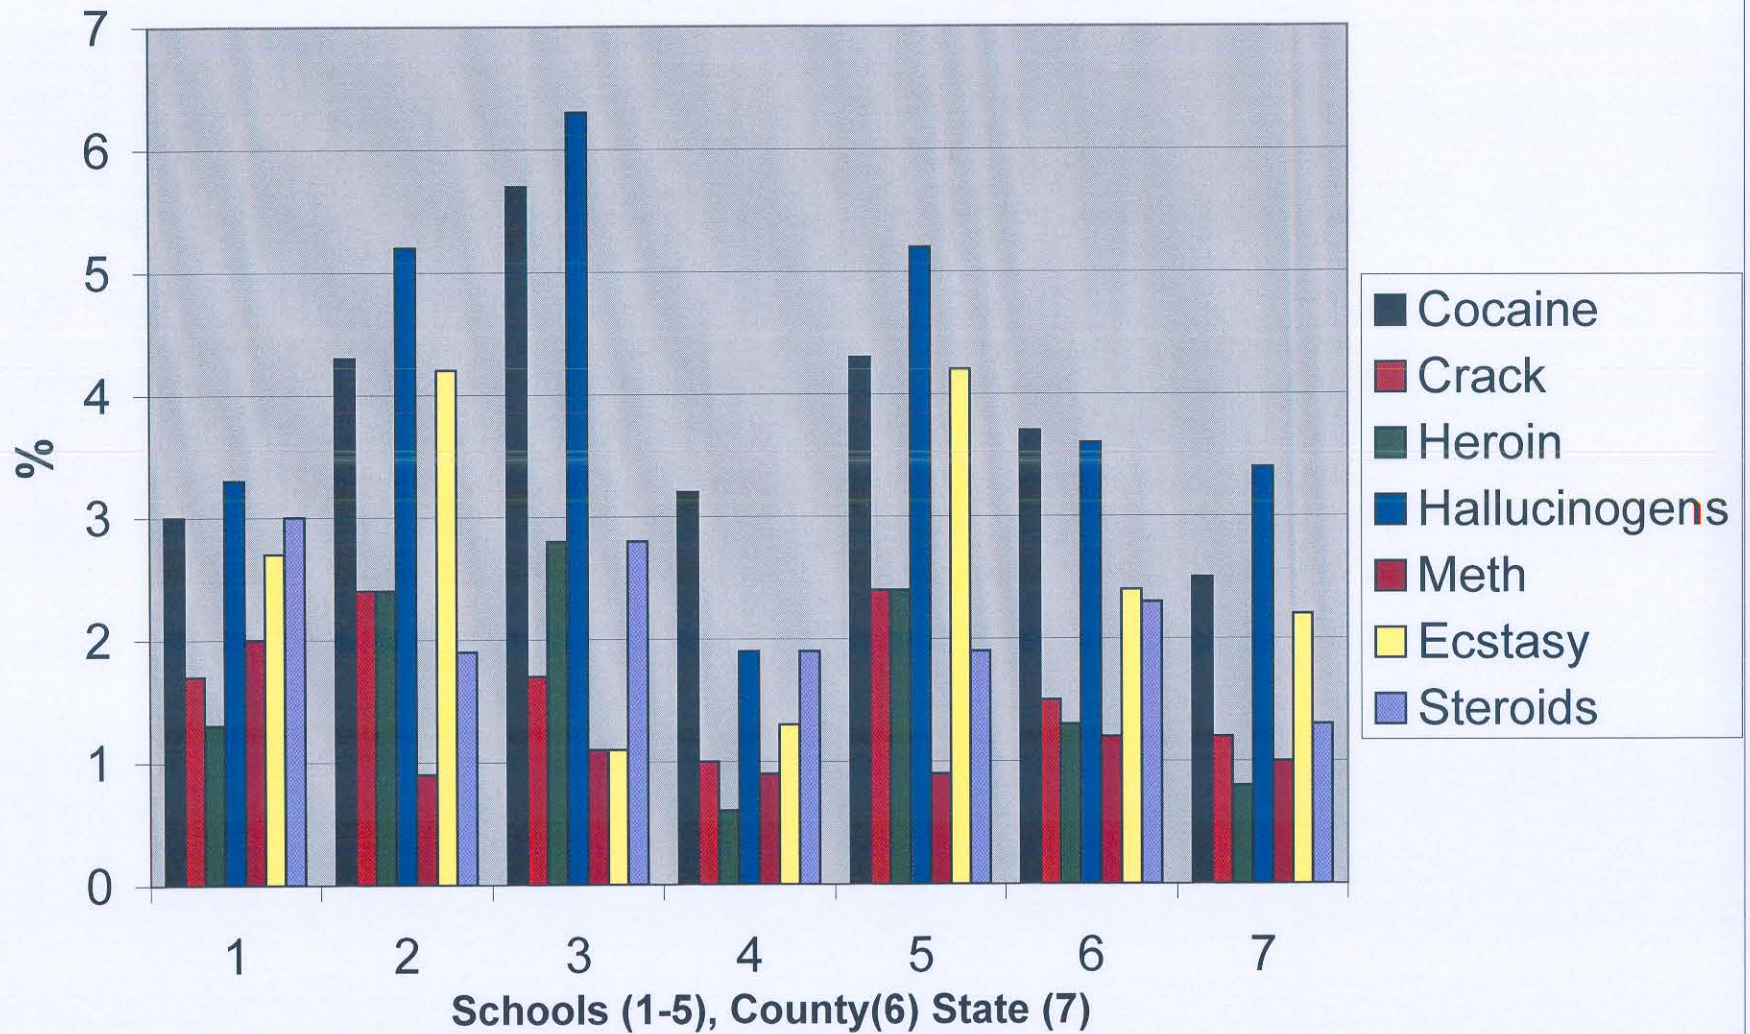

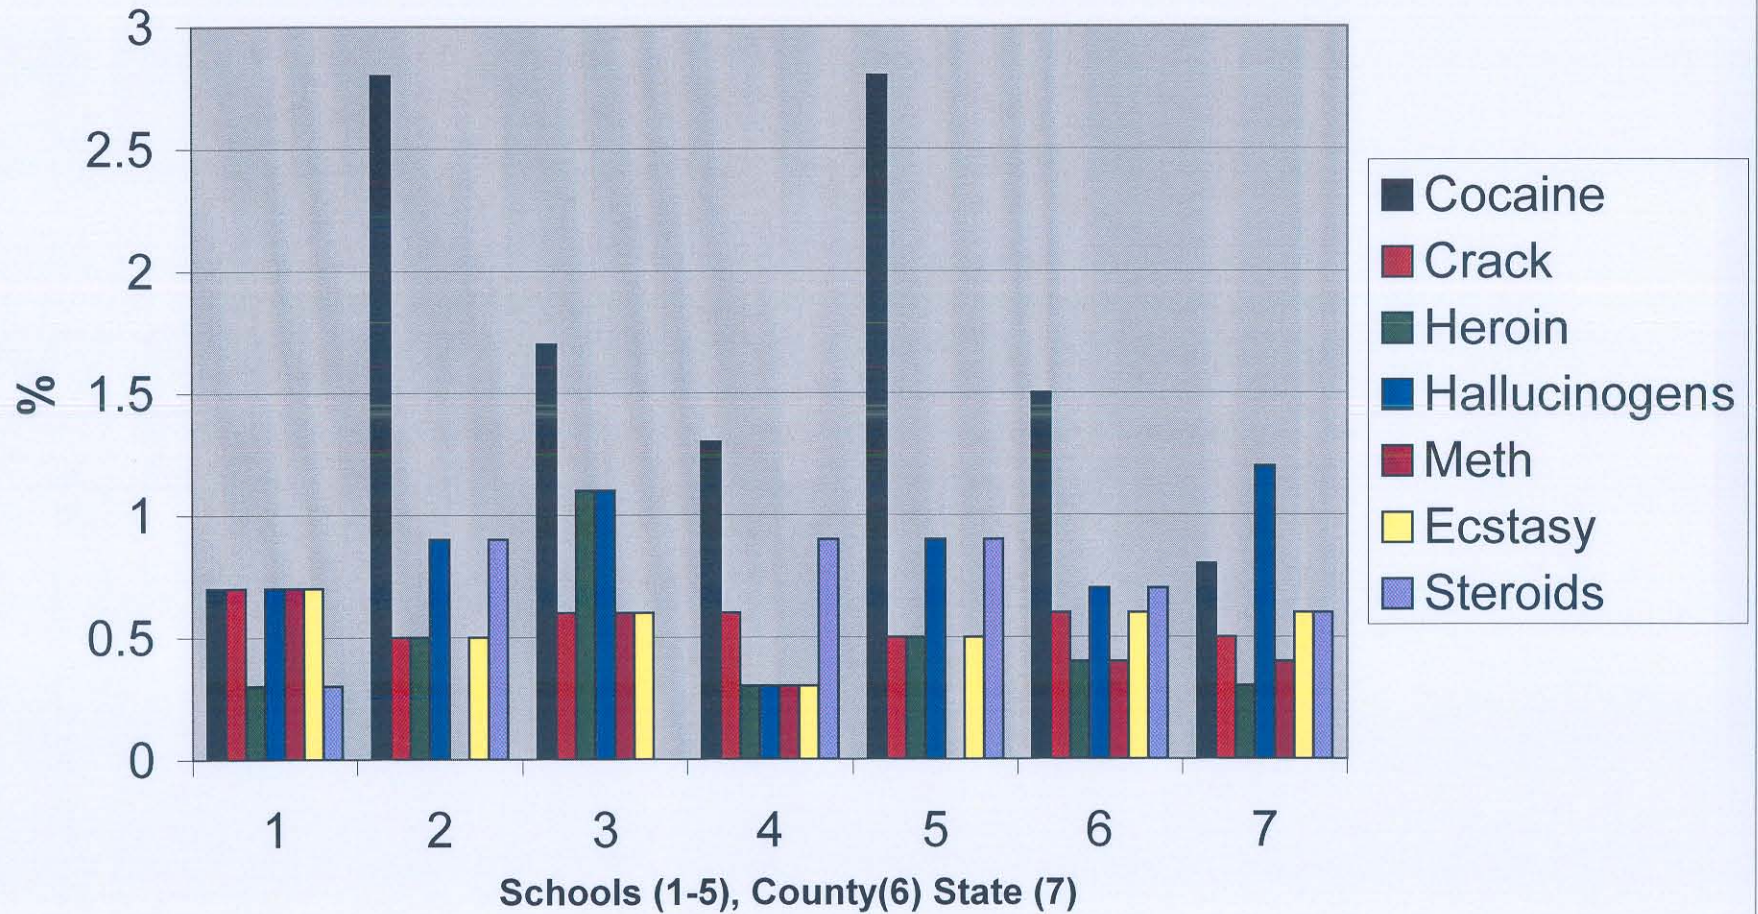

Margin of Error- Confidence Interval

- Four strategies:
 - Abnormally high reports of violent behavior in school
 - Abnormally high usages of certain drugs
 - Use of a fictitious drug in the past 30 days
 - Logical inconsistencies
- State slightly higher than Clarion at $\pm 0.7\%$

Year Comparisons School Four Only

School Four

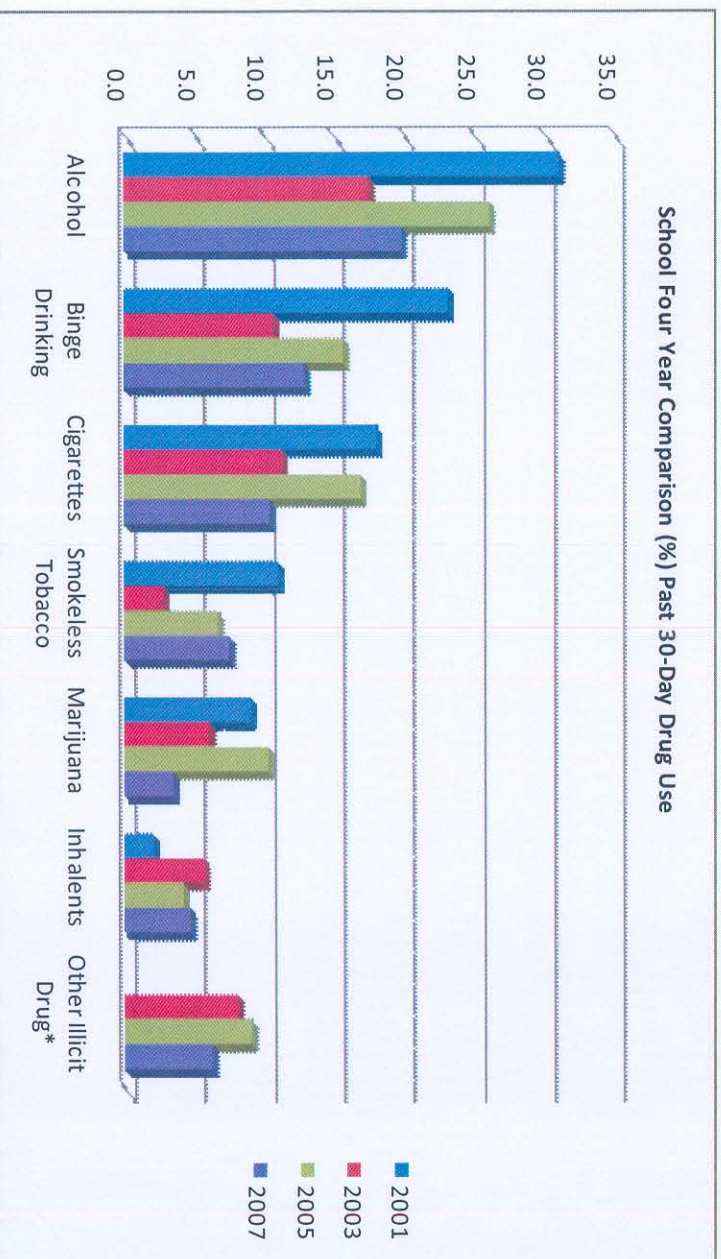

2007 was the fourth year for school four for participation in the PAYS. From this graphs you can check trends both positive and negative with these results. These are overall percentages that include all four grades for each year. **NOTE:** 2001 does not include the "ecstasy" question for both graphs. **Also, 2001's overall scores are estimated as no actual overall percentages were given in the final report.**
