RE: PA Agriculture & Inflation: The Rising Cost of Food

Chairman Causer,

I am looking forward to sharing at the PA House Majority Policy Committee Hearing this week, on my experiences/knowledge related to the Agriculture and Inflation: The Rising Cost of Food.

Here is a brief outline of the points that I will provide commentary, as I see the largest impact of to the cost of food, from the significant inflation being experienced:

- **Energy**
 - Impacting on-farm operations
 - Transportation of feed & eggs
 - Packing Costs

- **Labor**
 - Impact on-farm operations
 - Processing facilities
 - Distribution/Retail

- **Grains**
 - Local/National/Global shortages

Thanks,

Chris
