

Testimony of **Thomas Wubben**- Murrysville, PA

The Municipality of Murrysville and the Borough of Export have ten voting precincts in total. Currently, these ten precincts are encompassed within District 54. The vast majority of the Franklin Regional School District, which services residents in Murrysville and Export is also included within District 54.

The proposed map has seven precincts within District 55 and three precincts (East Manordale, Manordale, and Export) within District 56.

These precincts could be easily transferred to District 55 in exchange for other precincts as proposed by Michael Korn. His testimony and map support this position.
